

Reconciled EDM Taxonomy: Bridging Acoustic and Cultural Classifications

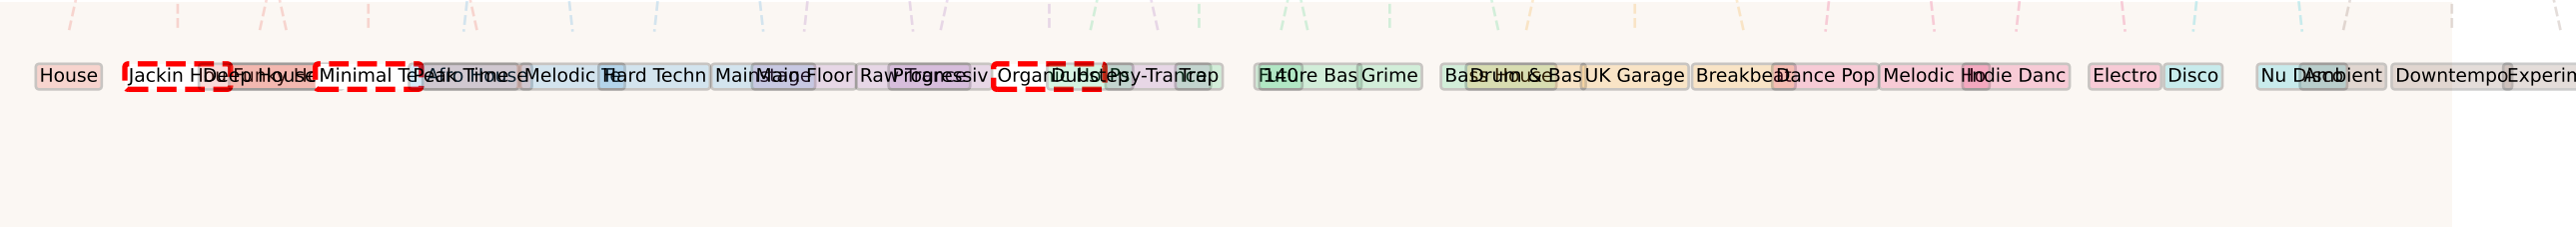

Level 1: Fundamental Families (8)

Level 2: Acoustic Genres (17-19)

Level 3: Cultural Variations (35+)

This reconciled taxonomy bridges the gap between acoustic similarity and cultural distinctions. Level 1 groups genres by fundamental sonic characteristics, Level 2 represents acoustically distinct categories, while Level 3 preserves cultural and commercial variations for practical use.

- Taxonomy Statistics:**
- Original genres: 35+
 - Fundamental families: 8
 - Core acoustic genres: 17-19
 - Consolidation potential: ~50%
 - Phantom pairs identified: 8
